No.

Flag Z.

From

The Secretary to the Honorable the President in Mysore
Serial 7-221/1940 dated 19th February 1941
enquiring whether for the various protected measures in relation
of power houses belonging to hydroelectric works or protected places.

In November 1940 the Residency suggested that if
any Hydro-electric works had power house, it would be
advisable to declare them as protected places if this
had not already been done.

A copy of this letter was sent to the Chief Elec-
trical Engineer who was requested to furnish Government
with a list of such works (other than those already
declared as protected places) which he considered should
be declared as protected places.

Flag S

In reply he sent a list of six ~~such~~ works.

This list was sent to the Inspector General of
Police for his opinion.

Flag Y

The Inspector General of Police replied that it was
not necessary to declare them as protected places. The
Superintendents of Police, he added, ^{were} ~~where~~ ^{post} instructed to
three guards over each of these places in the case of
any emergency. They had also been asked to render help
where officers in charge sought assistance.

Flag X

No further action was therefore taken in the matter
Power Houses at Sivasamudram and Shimshapura have been
declared as protected places already in May 1940. There
does not appear to be any other Hydro-electric work
(apart from the one being constructed at Jog) in Mysore.

Submitted for orders with a draft to the Residency.
